### About ABC Radio

The ABC is the independent home of Australian conversations, Australian culture, and Australian stories. ABC Radio provides local, national and international content on linear, digital and online platforms across Australia. It offers the most compelling content for the broadest radio audience in the country, and delivers it with confidence, creativity and efficiency

### About the Role

ABC Radio is seeking an experienced Audio Engineer to record, enhance, mix and transmit audio content on multiple platforms. For Spoken Operations, you will;

- Engineer live transmission and complex built programs as well as record events outside of the ABC and deliver outside broadcasts
- Provide high level technical support for digital and analogue equipment including digital workstations
- Deliver sophisticated and complex mix skills to studio produced content and outside events
- Act as first point of contact for audio issues for broadcast and online audio
- Liaise with producers and broader content teams in planning and coordinating productions
- Deliver training in basic field recording, DAW ingest, track layout and editing

### About You

You're an audio engineer expert with a solid understanding of radio production processes and technologies.

You'll also be able to demonstrate;

- A keen interest in and ability to adapt to new technology, including video
- Experience in planning and prioritising projects and tasks, working to strict deadlines
- Accomplished working knowledge of computer based systems for broadcasting and editing
- Excellent communication and interpersonal skills
