

# Data Analyst and SQL Developer

## About Us

At the Australian Building and Construction Commission (ABCC) we work to ensure the building industry is fair, efficient and productive. Our improved workplace relations framework benefits all industry participants and the Australian economy.

We work to achieve this framework by providing assistance, advice and education to the industry; monitoring and promoting compliance with relevant laws; undertaking enforcement activities; and using information and analysis to inform decision making.

## About the Position

An opportunity has become available for an experienced and motivated individual to join the Planning and Performance team. Reporting to the Team Leader - Intelligence, this role will be pivotal in producing agency performance reporting, supporting the agency industry intelligence function, administration of case management and performance reporting systems. This includes providing accurate and timely data reports to key internal and external stakeholders.

Applicants should possess experience as a business analyst or intelligence analyst. This experience will include an ability to maintain databases including extracting, transforming and loading data and building reports and dashboards in applications such as Tableau and Power BI.

Key responsibilities of the role include performance reporting, reviewing work practices, identifying improvements and providing training.

The ideal candidate will have balance between technical expertise in your field, coupled with superior customer focus, a positive attitude and a strong team player. As a senior member of the Planning and Performance team, the Data Analyst and SQL Developer will demonstrate excellent leadership skills and encourage positive working behaviours leading by example.

## What you'll need to succeed?

- Exceptional communication, conceptual and analytical skills, especially in the use and interpretation of multi-dimensional data in areas such as audit, compliance and reporting activities.
- Proven track record managing relationships and negotiating with stakeholders.
- Advanced MS SQL skills including SQL scripting, development of reports in SSRS and Visual Studio.
- Proven analytical skills with meticulous attention to detail.

## What you'll get in return

We recognise the increasing importance of flexible work options and family friendly work practices in maintaining a diverse, adaptive and high performing workforce. Not only will you receive high quality training and support (both formal and on-the-job) we offer an attractive base salary plus 15.4% superannuation.

## What you need to know now?

If you think this suits your profile, click Apply Now or contact Claire McCole, Team Leader - Intelligence on (03) 8509 3008 for more information.

It is important that applicants view the full candidate information kit, available on the 'current vacancies' page of our website, before applying.

Applications need to include a resume, a covering letter of no longer than two pages, a completed application cover sheet and declaration of good character.

To be eligible for employment all preferred candidates are required to undergo pre-employment screening. Screening checks include character, security and health clearances. Some positions may require additional checks to be performed and require a security clearance.
