Senior Developer

Department of Environment and Science / Flexible location

- Permanent full time
- Salary in the range of $93,895 to $100,287 per annum excluding superannuation.
- 36.25 hours per week, 12.75% employer super contributions

The Senior Developer (AO6) is a role in which you will:

- Work within a team of ICT professionals to undertake the design, development, maintenance and support of the Departments science and business applications in a range of technologies and development languages to agreed SLA performance standards.
- Provide proactive leadership in undertaking systems analysis and design in relation to new systems development or enhancements of existing systems.
- Provide effective, timely, client focused incident and problem management analysis and resolution for supported systems consistent with Departmental and Whole of Government standards.
- Create, maintain and encourage input from relevant stakeholders in relation to application support and enhancement documentation for supported systems in compliance with defined procedures and standards.
- Participate in the development and review of application development and support processes and procedures.
- Undertake research of new software products relevant to the applications environment.
- Establish and maintain collaborative working relationships with customers and DES business areas to provide constructive, effective feedback in relation to services that meet customer service expectations.
- Deliver high quality customer service through quality system documentation and industry best practice frameworks such as ITIL, and continually improving delivery methods.
- Perform out-of-hours and on-call application support duties as required.
- Foster a workplace culture that supports and promotes the interests of First Nations people and actively engage through our work to contribute to better outcomes for First Nations people.
