

**NATIONAL CONGRESS**  
OF AUSTRALIA'S FIRST PEOPLES

## **Expressions of Interest Sought Indigenous Housing and Health Project**

In partnership with the National Congress of Australia's First Peoples and National Shelter, Shelter WA is seeking Expressions of Interest (EOI) from Indigenous people, Indigenous Organisations or a consortia to review housing policy and programs over the last twenty-five years and their intersection with health policy, and to recommend housing policy solutions to deliver better health outcomes for Indigenous people. The final report from this review, whilst it will be academically rigorous, will be written for a broader audience with an interest in Indigenous housing and health.

A condition of awarding this project is that it is culturally informed and led by an Indigenous person.

The total budget for this component of the work is \$192,500. This budget includes all aspects of the project such as project administration and management, stakeholder engagement, project research, and writing and production of the final product. This includes all travel components of this project.

The closing date for EOI is **1st May 2019**.

For further information and a copy of the EOI please click on the **WEB LINK** below.

This project is supported by the Federal Department of Health through the Indigenous Australians' Health Program.
