

- **Senior Lecturer/ Associate Professor opportunity to design the Indigenous Health curriculum and build cultural awareness of Aboriginal and Torres Strait Islander Communities**
- **Located at the Sydney Medical School, Camperdown Campus**
- **Full-time 5 Year Fixed Term with an attractive remuneration package**

### About the opportunity

We are in a period of exciting and significant investment in our Faculty of Medicine and Health, and we are looking for a Senior Lecturer / Associate Professor Indigenous Health to join The University of Sydney, Sydney Medical School.

As a Senior Lecturer/ Associate Professor Indigenous Health you will provide leadership and expertise in developing the Indigenous Health curriculum in the Sydney Medical Program (MD). The successful candidate has an opportunity to build engagement and make a contribution to the development of the research and education aspects of a culturally appropriate Indigenous Health curriculum. You will collaborate with a network of indigenous academics, professional staff and students to enhance understanding and cultural awareness of Aboriginal and Torres Strait Islander Communities. You will also support and encourage current and future Aboriginal and Torres Strait Islander MD students

This role will consider applicants at either Senior Lecturer to Associate Professor level.

### About you

The University values courage and creativity; openness and engagement; inclusion and diversity; and respect and integrity. As such, we see the importance of recruiting talent aligned to these values and are looking for a Senior Lecturer or Associate Professor in Indigenous Health who has the following:

- PhD or Masters in an academic field relevant to the discipline OR other higher professional qualifications appropriate to Indigenous Health
- Identifies as Aboriginal and/or Torres Strait Islander
- Acknowledged at a national level as influential in expanding knowledge within the area of Aboriginal and Torres Strait Islander Health education and curriculum development
- Deep and broad experience in teaching and learning, as evidenced by participation in team teaching within an established program and experience in teaching in a variety of settings
- An established network of relationships with key academic and professional institutions, partners and stakeholders that can be leveraged to enhance Aboriginal and Torres Strait Islander health within the Faculty of Medicine and Health, Sydney University and Communities
- Demonstrated understanding of Aboriginal and Torres Strait Islander cultures and Communities

For consideration as an Associate Professor, in addition to the above the applicant would need:

- Experience in curriculum design and innovation in university and/or clinical teaching
- Demonstrated capacity to lead a research program
- Strong track record of publications in relevant field
- Successful record of obtaining research grants
- Experience in translational research and/or translating evidence into clinical practice

**Closing date: Tuesday, 23 April 2019**
