Full-time 1-year term contract

About Western Health Alliance Ltd (WHAL) trading as Western NSW Primary Health Network (WNSW PHN)

The WNSW PHN is one of 31 Primary Health Networks across Australia established by the Australian Government to support frontline health services. Our focus is to increase the efficiency and effectiveness of primary health care, ensuring people receive the right care in the right place at the right time. To achieve this, we work closely with general practice, other health care providers, Local Health Districts, hospitals and the broader community to align services with the health needs of the region.

The Role

This role supports WNSW PHN's population health planning and data analysis: a key responsibility being that of regional health outcomes measurement and the systematic management of all core population planning and service commissioning datasets.

Responsibilities include the use of business intelligence tools and information systems that monitor the effectiveness of WNSW PHN's commissioned services and general practice support services, including the creation and management of dashboards, GIS mapping and other reports to inform decision making by both the Board and the Executive Leadership Team.

This position reports to the Manager Data and will work closely to support other teams within the organisation as well as work with primary health care professionals, general practice and Aboriginal Medical Service staff, and other external and internal stakeholders.

Benefits to working with WNSW PHN

We pride ourselves on being supportive and flexible and offer a great range of benefits including:

- Generous salary packaging options up to \$18,450 per year
- Professional development allowance and leave
- Flexible working arrangements
- Supportive team environment
- Collaboration with passionate likeminded professionals
- 5 weeks annual leave
- Additional leave between the Christmas and New Year period
- 6 weeks paid parental leave
- Opportunities to be innovative
