The Office of Strategy, Quality and Analytics is responsible for providing high quality decision support information to the University community. This is achieved by accessing, collating and analysing data from both our own internal systems, as well as external sources. The team supports, maintains and develops the institutional Data Warehouse and surveys systems to allow both self-service reporting and detailed analysis by the reporting functions within the team. The office is also responsible for managing, and ensuring institutional compliance with various external regulatory reporting requirements.

The Role

The Business Analyst is responsible for project-based data analysis and the coordination of the Uniform collection process (when applicable), and also provides support for information requests submitted to the Office. The role is instrumental in providing insight to senior management, Schools and Offices for planning and general University review purposes. To be successful in this role, the ability to develop and maintain strong working relationships with key management personnel and other University staff is crucial.

For further information about this position, please refer to the Position Description.

Skills and Experience
