

## LEARNING MEDIA DEVELOPER

### Academic Quality Curriculum Management and Policy

- **Part time, fixed term until April 2020 (22.5 hours per week)**
- **Level H0707I \$81k-\$89k pro-rata plus 9.5% superannuation**
- **Salary packaging opportunities**
- **Ref: 1918A01/201968**

The Office of Curriculum and Academic Policy has established a team representing the first step in developing organisational capacity to undertake high end Digital Learning, Interactive Design and Media Production/Development specific to the needs of strategic projects in curriculum. The team is being established as a project team with plans to evolve the service into an ongoing capability.

The team has an exciting a challenging agenda for 2018 with project deliverables including the design of multiple educational modules for delivery on a range of internal and external digital platforms.

#### **The Role**

The role will provide expertise in the technical design, production and implementation of engaging learning media for Murdoch University's high quality, online learning programs. The Learning Media Developer will work with teams on a range of strategic projects and provide leadership and expert advice in developing learning media and digital learning environments to enhance online learning programs. For further information about this position, please refer to the Position Description.

#### **Skills and Experience**

- A relevant tertiary qualification and/or an equivalent mix of qualifications and experience in learning media development and production.
- Current technical knowledge, operational understanding and proficiency in a number of design and media development tools (relating to the production of graphics, photography, video, animation and/or multimedia) and their use in an online higher education environment.
- Demonstrated proficiency in developing experiences and environments to support student learning and engagement, using skills in web design and development, Learning Management Systems, social media and educational technologies.
- Demonstrated ability to analyse requirements and interpret complex concepts and transform these into innovative, media-rich, interactive and engaging experiences for learners across a range of platforms.
- Knowledge and experience relating to the management and use of media assets, including understanding of copyright, intellectual property and licensing.

#### **Think Murdoch**

With strong links to government, business and the community, Murdoch University helps people discover how to make a difference. Our staff and students are committed to high quality education, innovative research, and strong community engagement both locally and internationally.

Prospective staff can expect to enjoy the lively, natural campus and dynamic work environment, as well as a range of benefits and services unique to employment at Murdoch. There's never been a better time to join us.
