

Geodetic Technical Specialist

Salary: \$82,574 to \$115,276 + super.

Position No: 822869

- **Optimise the quality and efficiency of GNSS data processing and analysis**
- **Appointment will be at either VPS G 4 or 5 (Grade appointment subject to candidate's capabilities)**
- **2 Lonsdale Street, Melbourne - close to Parliament Railway Station**

The Department of Environment, Land, Water and Planning (DELWP) brings together Victoria's planning, local government, environment, energy, suburban development, forests, emergency management, climate change and water functions into a single department to strengthen connections between the environment, community, industry and economy. It is tasked with ensuring that Victoria has the right conditions to enable economic growth, while delivering liveable, inclusive and sustainable communities.

We are building an inclusive workplace to help realise the potential of our employees, embrace our differences, and apply our diverse thinking to innovation and delivering services to Victorian communities. All jobs can be worked flexibly and we encourage job applications from Aboriginal people, people with disabilities, young people and people from culturally diverse backgrounds.

Position purpose

The Geodetic Technical Specialist provides technical support to the Geodesy Section by leading the strategic development and enhancement of Victoria's operational geodetic systems, including the Survey Mark Enquiry Service (SMES), and delivery of data and data services. The role will also be responsible for routine high-precision GNSS data processing and analysis to support national datum maintenance and monitoring of Victoria's geodetic infrastructure.

Recognising the specialist nature of the role, this position offers a unique opportunity for growth and development in geodesy and GNSS. As such, the position can be filled at either the VPS Grade 4 or VPS Grade 5 level according to the capability and experience of the applicant. Applicants are invited to apply for a position in accordance with their skills and experience and are required to identify with the Accountabilities of each role and respond to the Key Selection Criteria of each role they are applying for.

Specialist/Technical Expertise
