

THE UNIVERSITY  
OF QUEENSLAND  
AUSTRALIA

CREATE CHANGE

# Add your voice to Indigenous research

**Build on the wisdom of past generations and create new knowledge systems that can be passed on.**

As a UQ PhD candidate or research student, you'll get to collaborate with some of Australia's brightest minds, connect with mob, and make your mark on the world.

Here you'll enjoy:

- a culturally safe environment with research practices guided by culture
- personalised support from application to graduation (and beyond)
- wellbeing check-ins and professional development.

You'll also receive a living stipend of \$47,500 per year on top of your tuition scholarship.

"I think sometimes that we've forgotten how fun it can be to learn - to tap into that thing that you're absolutely passionate about and that could lead you to a career you can't even imagine yet."

**Stephanie Gilbert**, proud Tubba-gah Wiradjuri and Kamilaroi woman, UQ Professor and Associate Dean (Indigenous Engagement)
