

Cancer Institute NSW

Research and Evaluation Officer (Aboriginal Identified Role)

Cancer Institute NSW

Employment Type: Full Time, Fixed-Term (up until 30 June 2024)

Position Classification: Health Manager Level 2

Remuneration: \$100,107 - \$118,735 per annum, excluding superannuation

Hours Per Week: 38

Location: 1 Reserve Road, St Leonards, Sydney

- **This role is open to Aboriginal applicants only, in accordance with an identified recruitment action under the NSW Government Sector Employment Rule 26 (GSE Rule 26).**
- **Be part of an organisation that partners with Aboriginal communities to improve cancer outcomes.**
- **Use your skills and/or experience in research and evaluation to deliver projects that support Aboriginal communities as outlined in the NSW Cancer Plan.**

Applicants must be of Aboriginal descent, identify as Aboriginal and/or provide identification as being Aboriginal and accepted in the community. Aboriginality is a genuine occupational qualification and is authorised under Section 14(d) of the Anti-Discrimination Act 1977. To be eligible to apply applicants must identify and be of Aboriginal descent and accepted by the community. Applicants will be required to provide written evidence to confirm their Aboriginality. This documentation must be provided as part of your application and cited at interview.

Where you'll be working

The Cancer Institute NSW is the NSW Government's cancer control agency, established to lessen the impact of cancer across the state. Working at the Cancer Institute NSW means joining a team of committed staff who are proud to be a part of the Institute's purpose of overseeing and accelerating the effectiveness of cancer control in NSW.

The Cancer Institute NSW is a collaborative working environment that encourages diversity and inclusion in how we work together. The Aboriginal team at the Institute is an integral part of enabling equity, inclusion and advocacy to improve the cancer outcomes for Aboriginal people in NSW.

What you'll be doing

We are seeking an individual with strong research and evaluation skills, knowledge and experience to join our Research and Evaluation Team in the Cancer Screening and Prevention Division. In this role you will be responsible for the co-ordination and support for the establishment, delivery management and monitoring of research and evaluation projects that are designed and conducted with Aboriginal stakeholders and partners.

The role will involve managing research and evaluation projects which seek to improve cancer outcomes for Aboriginal peoples across a range of cancer screening and prevention programs (e.g. tobacco, vaping, skin cancer prevention, healthy lifestyles breast, bowel and cervical). This role will support the development of research and evaluation aligned to culturally appropriate methods and governance practices to engage with Aboriginal Communities.
