

Ranger Indigenous Identified

Department of Environment and Science

Location: Coen

Remuneration: \$76,232 - \$83,566 p.a.

Job Ad Reference: QLD/529748/23

Queensland Parks and Wildlife Services & Partnerships invite applications from suitable First Nations candidates to join their Ranger team at Elgoy!

This position is based at the QPWS Coen Ranger base managing and working across a small team in the planning and delivery of diverse works programs associated with visitor and asset management, capital works, infrastructure maintenance and natural resource management across a diverse and challenging environment.

The role will have a strong focus on working with Traditional Owner partners and other government departments. As the successful OO5 Ranger within the team, you will be someone who leads the work group across natural land management strategies and support the Ranger in Charge with supervision activities for the team.

Leadership will be natural for you, and working collaboratively with the local corporations will provide you with the opportunity to develop strong relationships with local groups.

Your success in this role will be supported by your good communication skills and positive attitude toward team development. Your ability to assist with annual work programs for recreational and infrastructure maintenance will be essential, and your capacity to deliver fire management, weed and pest control across the estate will provide learning and development opportunities and allow you to mentor other team members. Good basic computer literacy is essential, and your previous experience in natural land management is something we want to hear about in your application.

Coen Ranger base is remote, there may be periods of two months or longer where access to major service centres is limited or not possible, dependant on weather and road conditions.
