

Principal Environmental Officer

Department of Environment and Science

Location: Brisbane City (Flexible)

Remuneration: \$109,426 - \$117,693

REF: QLD/530060/23

Are you an environmental professional who has experience in contaminated land and managing risks to the environment? Do you excel at simplifying complex scientific information for a wide range of audiences?

This might be the role for you.

#Acareerthatmatters #Acontributionthatcounts

The Department of Environment and Science (DES) is currently looking to recruit a Principal Environmental Officer (PO4) into our Emerging Contaminants team.

To succeed as a Principal Environmental Officer, you'll have four things in abundance:

- Great people, time management and communication skills
- Evolved analytical, scientific, and problem-solving capability
- A passion to work with multidisciplinary teams to deliver meaningful work
- A strong background in interpreting and applying legislation

If you're excited by the complexity, diversity, and sense of pride that this role affords – **Apply now!**
