Senior System Administrator DevOps Engineer

Office of State Revenue / Brisbane City

Salary: $100,869 - $107,722 p.a.

Location: Brisbane City

REF: QLD/390753/21

Duties/Abilities: The duties and responsibilities of the position will include, to:

- Manage Cloud, platform and identity configuration including optimising performance and installing/upgrading systems. Proven hands on end to end experience planning, provisioning and managing secure Azure infrastructure (leveraging for example - Azure DevOps and Terraform Cloud).

- Develop and maintain positive relationships with key internal and external stakeholders including OSR business units, ICT vendors, and strategic support partners to achieve quality client service through the support and administration of Cloud environments and security technologies.

- Prepare and present sound independent advice and feasible recommendations on Cloud services, platform administration, Cyber security and related technologies to address changing business needs.

- Monitor the performance of external vendors and service providers to ensure that supported technologies and services meet agreed service levels and initiate actions to maintain or improve levels of service.

- Anticipate, investigate and resolve problems for supported technologies, implementing agreed remedies and preventative measures.

- Be proactive in adopting a modern approach to working with technology i.e. automation and configuration management.

- Work closely and collaboratively with all IT colleagues, openly sharing information and knowledge, to help build individual and branch capability and performance levels.

- Work with peers to cross skill in related technologies including but not limited to disciplines such as agile methodologies, build and test of code with scripting and programming languages.

- Ensure documented ITIL practices for incident, request, problem and change activities are followed.
