

BCT Project Officer Targeted

Do you want your work to make a difference for NSW?

Together, we create thriving environments, communities and economies.

- **Aboriginal targeted opportunity**
- **Project Officer role, 18 months temporary in biodiversity conservation programs**
- **Negotiable (Albury, Orange, Queanbeyan, Inverell, Lismore, Coffs Harbour, Newcastle, Parramatta)**
- **Environmental Officer Class 7, \$95,516 to \$105,532 p.a plus employer's contribution to superannuation and annual leave loading**
- **This is a targeted role under GSE Rule 26 and Aboriginal people are encouraged to apply**

This is an exciting opportunity to take a central role in supporting the design, development, and evaluation of Biodiversity Conservation Trust (BCT) private land conservation programs. You will provide operational policy advice, undertake operational policy development, lead internal collaboration and, lead and contribute to external communication products to support the delivery of the BCTs Conservation Management Program. You will have influence to support the BCT to engage effectively with landholders and stakeholders and, enable Aboriginal engagement in private land conservation.

About You

To be successful in the role, you will have:

- Strong interpersonal skills to work closely with other program and regional delivery teams and collaborate with stakeholders in project delivery
- Demonstrated project planning skills and be a natural at managing and meeting competing priorities
- Ideally, you will have an understanding of the NSW BCT's legislative, strategic and operational responsibilities as well as experience of engaging with Aboriginal organisations to deliver natural resource management outcomes

This is an excellent opportunity for a project professional to join a dedicated and highly regarded team together with significant opportunity to be a key contributor in supporting the delivery of outcomes for the people of NSW. We also offer career development and advancement opportunities.

Essential Requirements

- knowledge and/or experience in natural resource management and planning for environmental issues.
- Understanding of the role and function of Government with respect to biodiversity conservation policy and legislation.
- Demonstrated ability to understand and work with technical and scientific information in the context of environmental programs including operational policy and program development.
