About Us

Charles Sturt University is a young and growing university committed to developing far-sighted people who help their communities grow and flourish. We make a significant contribution to the prosperity and vibrancy of our rural and regional communities, with a reach and impact across Australia and internationally. We work together with industry, communities and students to create new thinking, inspire each other and make a positive and progressive contribution to the world.

The Faculty of Science delivers flexible, innovative **teaching programs** which provide graduates with the skills and knowledge to build a career, advance their profession and contribute to their community. We currently have more than 9000 students and over 500 staff dedicated to advancing scientific knowledge.

We are a leader in strategic and applied **research** in a wide array of sciences. We enhance and extend knowledge, train and educate future researchers and provide scientific solutions to current challenges. We achieve this through ethical practice, professional collaborations, industry involvement and a commitment to continual improvement.

We also provide a range of health and other services to our regional communities through our **enterprise** activities.

The Three Rivers University Department of Rural Health (UDRH) is a Commonwealth Department of Health initiative embedded within Charles Sturt University; with the aim of enhancing the recruitment and retention of rural health professionals. Three Rivers is an alliance that brings together the unique geographical knowledge and expertise of CSU and its partners..

The key activities of the UDRH are:

- Raising the aspiration and success of Indigenous and rural students from the outer regional and remote footprint of the UDRH;
- Growing capacity for collaborative quality community-led rural clinical training, particularly in smaller regional communities and across expanded practice areas such as disability, aged care, mental health and primary care;
- Evaluating the activities of the UDRH, researching rural health workforce capabilities and trialling approaches to service delivery to enhance the health of rural Australians; and
- Fostering the development of future rural health capabilities by developing new multidisciplinary resources and training programs.

Charles Sturt offers a great work-life balance, professional development opportunities and generous financial benefits.
