

**Regional
NSW**

Data Project Officer – Multiple roles

- **Temporary Full Time Role for 2 years**
- **Location - Queanbeyan, Armidale, or Coffs Harbour preferred.**

The Department of Regional NSW is responsible for building resilient regional economies and communities, strengthening primary industries, managing the use of regional land, overseeing the state's mineral and mining resources and ensuring government investment in regional NSW is fair and delivers positive outcomes for local communities and businesses.

In the role of **Data Project Officer**, you will work as part of a team to maintain the data generated by funding programs in the Regional Programs branch. You will assist with development of internal reporting processes and provide input to reports and analysis for internal and external clients.

This role will be involved in ensuring integrity of data and provide accurate, complete, and accessible information to assist the delivery of programs that support Government commitments to regional communities.

For further information, contact **Maryane Bogovic – Executive Consultant – Hudson Canberra** via email nswjobs@hudson.com or phone Maryane Bogovic on 0411 574140.

How to Apply

If this role sounds ideal to you, please apply via our online portal through the **WEB LINK below** by submitting your resume and a brief cover letter outlining how your skills and experience match what we are looking for. We will then get back in touch after the closing date.

Applications close at 11.55pm 16th May 2021

Additional Information

A talent pool may be created from this recruitment action for ongoing and temporary roles of the same standard that may become available for filling over the next eighteen months. The successful applicant in this role may be required to undergo a police check, health assessment and other assessments as required.
