

Senior Advisor, Urban Design

- **Fixed term – full time 2 years**
- **Melbourne CBD location**
- **Salary: VPS 5 - \$98,396 - \$119,052 + superannuation**

Suburban Rail Loop (SRL) is a significant project involving a new rail network connecting Melbourne's middle suburbs as well as associated precinct development activities. The loop will circle Melbourne, connecting major railway lines from the Frankston line to the Werribee line via Melbourne Airport.

About the opportunity

You will contribute towards ensuring aspirational but deliverable visions and plans are in place to shape and manage precinct change enabled by the SRL transport project.

You will also provide urban design services to ensure the SRL transport project supports the future vision of the precincts. Working at a neighbourhood planning scale through to components of the transport project, to ensure the overall project achieves high quality design outcomes at every scale.

Your role will cover:

- **Productivity** – including the development, coordination and implementation of interventions to support growth in local jobs and investment closer to where people live, as well as facilitating industry and economic development opportunities for the Victorian economy.
- **Connectivity** – including the development of urban design responses to support an integrated transport network that increases travel options, supports the 20-minute neighbourhood agenda, and enhances access to places and jobs by connecting major employment, education, health and activity centres across Melbourne's suburbs.
- **Liveability** – including the development of strategies, frameworks and actions to create more sustainable, inclusive and resilient precincts across Melbourne, generating new, and increasing access to, social and economic opportunities, and enabling best-practice urban design and place based approaches.

As a Senior Advisor you will conduct advanced research and analysis; prepare high quality briefs, reports, strategic documents and design collateral; provide design advice and participate in design review; manage projects, contractors and deliverables; and be responsible for providing expert advice and recommendations to senior managers and principle urban designers. As a Senior Advisor, you will have the opportunity to work with stakeholders across government and beyond.

Why join us?

- An emphasis on work / life balance
- High-performing team environment
- Equal opportunity employer
- Personal & Professional development opportunities
- Committed to safety & wellbeing
- Training & development opportunities
